Oh, my love we gotta save ourselves  
If we wanna save the world  
Don't give in to your hate  
When you know you can change  
It's hitting home when you feel so strange

I wanna say those words but it's not that easy  
I smile but it doesn't make things right  
And it's hard when it's hurting all the time  
But I can leave this thing behind

You gotta trust me and hold on  
We gotta slow down, baby  
'Cause we're still young but we are getting older  
Our hearts are still warm but they are getting colder

And this life is getting the best of me  
And I'm down on my knees, oh please  
Baby, hold on

Keep your head up high  
Reach for me, I can pretend when it's a lie  
Talk to me when you're low  
Come bother me, I promise I won't tell a soul

And we can turn this corner, no, it's not that easy  
But were fools not to give it a try  
And it's hard when it's hurting all the time  
But I can leave this thing behind

You gotta trust me and hold on  
We gotta slow down, baby  
'Cause we're still young but we are getting older  
Our hearts are still warm but they are getting colder

And this life is getting the best of me  
And I'm down on my knees, oh please  
Baby, hold on

When I see the stars above me  
Shining their lights down on my face  
I feel you, now I know what I'm missing

Hold on, we gotta slow down, baby  
'Cause we're still young but we are getting older  
Our hearts are still warm but they are getting colder

And this life is getting the best of me  
And it gets me down on my knees  
Hey, please baby, hold on
