### **"A Very Special Love"**

Visit "[A Very Special Love](#)" on MotoLyrics.com

It'll have my love behind it  
And it will be a symphony of all you mean to me  
A very special love song

And babe, if there's a way you know I'm gonna say it  
babe  
There's a melody I'll play it and I'll play it through  
Especially for you and all the words are true  
A very special love song

So don't be surprised if you're sitting alone and you  
hear it  
'Cause I'm gonna sing it to the whole big lonely world  
So turn your radio way down low and get near it  
And I'll tell the world I love you girl

Babe, if there's an ounce of love I'm gonna give it to  
you babe  
If there's a breath of life I'm gonna live it everyday for  
you  
And oh the whole night through singing just for you  
A very special love song for you
