"Portrait Of A Summer Thief"

You open up to say you're feeling all right
With pictures on the wall
You'll figure out that feeling here is all right
With still frames in the hall
But it's not that hard

Could you save me from,
Could you be there for me?
Could you wake me from,
Could you be my thief?

These summer stars are fading out
Your silhouette reminds me now
Of all the things I wish I could have said
So picturesque and black print dress your darkened
hair a perfect mess
I touch you with my hands, could only try,
But it's not that hard...

Could you save me from,
Could you be there for me?
Could you wake me from,
Could you be my thief?

Just open up, you said you'd open up
I wish you'd open up, why can't you open up?

Could you save me from,
Could you be there for me?
Could you wake me from,
Could you be my thief?
