"Stomp"

Thank God for the weekend
Now is the time
For feelin' alright
Come and taste the spice of life

Tonight nothin' matters
Come and feel the groove
Let it into you
You know what you've gotta do

Every Friday when my work is done now
I get my party on
I call a few friends of mine
Make sure I'm looking fine
I know we're gonna have a real good time, yeah

Everybody clap your hands
Get on up and dance
We're gonna stomp all night now
Everybody move your feet
Get on up and feel the beat
We're gonna stomp all night now

Everybody, we're gonna stomp all night, everybody...
