Uh, yeah, beautiful babe

I've got this girl and she's the only thing
That can drive me insane
I've got this girl and she's the closest thing
Boy, to fortune and fame, hoo

And it's a crime to admit
When she pretends I'm legit
My friends, she's hotter than shh
Her sun's shinin' on me

Anybody that's something so fine
Now's the time to acknowledge, oh, ooh
Everyone that knows the women's a dime
Come and sing it with courage, woah

I got it made in the sun, baby
Made in the sun, sugar, made in the sun, honey

I've got this girl and she don't give a damn
What you do or you don't
Infect your world and take you by the hand
Watch it go up in smoke, yeah, oh

She's like passion and some pain
Boy she's one in the same
Got my number and my name, oh

Anybody that's something so fine
Now's the time to acknowledge, oh
Everyone that knows the women's a dime
Come and sing it with courage, oh

I got it made in the sun, baby
Made in the sun, sugar, made in the sun, honey
I got it made in the sun, baby
Made in the sun, sugar, made in the sun, honey
