Just to look at the mist fading  
And the fog going up  
To take the time to remember  
I've lost my way for so long

Behind our innocence  
Hides all our weakness  
Hope still conceal the pain  
That a child will bear all alone her life

Just to convince me I'm wrong  
Just to try to believe again  
I think, I doubt I still have the force  
To push back this feeling

Behind a mask I move one  
And I fall and fall again  
We are all the fruit of our will  
Let me accept  
That suffering will always be the strongest

Buried in this damp ground  
Do you hear my cries screaming your name?  
The sun will not warm  
Your body without life anymore

Remember our first looks  
This breath so soothing  
You've been taken by death  
I guess I had to follow you

Behind our innocence  
Our fears remain more and more  
Fighting life to survive  
Let's hope your suffering has subsided

We are all able to fight, to scream  
The wounds that life gave us  
We're all too weak  
To be able to fight the past and let it go behindâ€¦
