It's the end of a broken imaginary time  
It didn't stay long, your famous superficial golden tan

When it comes down to dust  
You're such a lightweight after all  
When it comes down to dust  
You're such a lightweight after all  
You're such a lightweight after all  
You're such a nobody at all

It's the end of a broken imaginary time  
It didn't last long, your famous superficial golden tan

When it comes down to dust  
You're such a lightweight after all  
When it comes down to dust  
You're such a lightweight after all  
You're such a lightweight after all  
You're such a nobody at all

You're such a nobody at all
