Midnight children got no place to go  
Midnight children, so who's gonna take you home?  
(Enfants de la nuit, enfants de la nuit)

Midnight children, don't care what's wrong or right  
Midnight children, when you're dancing in the heat of  
the night  
Midnight children alone, enfants de la nuit, enfants de  
la nuit

Midnight children got no place to stay  
(Midnight children, enfants de la nuit)  
Midnight children don't care if you're straight or gay  
(Midnight children, enfants de la nuit)

Midnight children now who's gonna take you upstairs?  
Midnight children are too young to even care  
Midnight children alone, (oooohhh)

Enfants de la nuit, Enfants de la nuit  
(Midnight children, enfants de minuite)

Midnight children, you're all little kings and queens  
Midnight children, you're just living the Aquarian  
dream  
Midnight children come on  
(Come on)

We're on our own and were out tonight  
We're on our own and we feel alright

Enfants de la nuit  
(Enfants de la nuit, midnight children)  
Enfants de la nuit, enfants de la nuit
