You ask about forgiveness  
I've not defined the words yet  
A chance to set your back straight  
A chance to find some feeling  
You say you will come home soon  
Wont see you most the weekday  
I miss you at the best of times  
You help me walk that fine line

Sometimes you pale on reflection  
This walking figure might have 9 lives  
Sometimes you pale with desire  
I don't know whether you've used  
All your lives

You talk about forgiveness  
I've yet to find the meaning  
I miss you at the best of times  
You help me walk that fine line

Sometimes you pale on reflection  
This walking figure might have 9 lives  
Sometimes you pale with desire  
And I don't know whether you've used  
All your lives

You might have 9 lives  
You've used all your lives  
You might have 9 lives
