### "I Know What You're Like"

Visit "[I Know What You're Like](#)" on MotoLyrics.com

I know what you're like  
The silence takes my time  
I see you in black and white  
I know what you're like

Everything will come down to time  
will come down to time  
Everyone will come down in time  
will come down in time

I know what you're like  
The silence takes my time  
I see you in black and white  
I know what you're like

Everything will come down to time  
will come down to time  
Everyone will come down in time  
will come down in time
