

## South "Loosen Your Hold"

Visit "[Loosen Your Hold](#)" on MotoLyrics.com

Feed me something we'll go back to the start  
Take pride of place understand our reasons  
A photograph taken at the time  
When confidence won't up and leave

So loosen your hold though you might be frightened  
Release or be caught if this be the right thing  
Unable by thought to look what the tide brings in  
Look what the tide brings in

Feed me something we'll go back to the start  
Take pride of place understand our reasons  
A photograph taken at the time  
When confidence won't up and leave

So loosen your hold though you might be frightened  
Release or be caught if this be the right thing  
Unable by thought to look what the tide brings in  
Look what the tide brings in

So loosen your hold though you might be frightened  
Release or be caught if this be the right thing  
Unable by thought to look what the tide brings in
