

South "Same Old Story"

Visit "[Same Old Story](#)" on MotoLyrics.com

Same old story in time for a warning
I'm gonna turn around, you'll be gone
A nice little goodbye, songbird unheard
Your precious light will shine

Don't make me wait, now that I have come of age
Stranger today, your precious light will come my way
I was not in for much, may be lost but I've been touched
Watch over me, let me be

Now's the time to lose yourself
Now's the time to lose yourself

Same old story in time for a warning
I'm gonna turn around, you'll be gone
A nice little goodbye, songbird unheard
Your precious light will shine

Don't make me wait, now that I have come of age
Stranger today, your precious light will come my way
I was not in for much, may be lost but I've been touched
Watch over me, let me be

Now's the time to lose yourself
Now's the time to lose yourself
