Are you biting your tongue?  
Or riding on your tights?  
It's hard to discern if it's just a state of mind

All these second chances get  
Another problem off your chest  
Know not where you go or where you've been

Give in to love it's the one thing we have  
Hold out your laugh, see the beauty within  
I know the way that you won't make a fuss  
Don't mean there's no pain

So they say  
- ah-ooooooh  
There must be more to life than this  
- ah-ooooooh  
No mistaking happiness  
- ah-ooooooh  
There is more to life than this  
- ah-ooooooh  
Through the days and nights we drift

Are you biding your time?  
Or sinking in the shallows?  
It's hard to describe, I might never know

Always heard you got shit for brains  
Move your body in a thousand ways  
I know it's in your nature to explore

Give in to love it's the one thing we have  
Hold out your laugh, see the beauty within  
I know the way but you won't be the first  
Don't mean there's no pain

So they said  
- ah-ooooooh  
There must be more to life than this  
- ah-ooooooh  
That's what you say, no mistaking happiness

- ah-oooooh  
There is more to life than this  
- ah-oooooh  
Through the days and nights we drift

In the distant fantasy  
There will be no place for us

- ah-oooooh  
- ah-oooooh  
- ah-oooooh

I heard you say  
There must be more to life than this  
- ah-oooooh  
That's what you say, no mistaking happiness  
- ah-oooooh  
There is more to life than this  
- ah-oooooh
