See all the people want in my eyes
They all seem to wanna share my light, my light
My light
I'm gonna be there when your soul comes down
I see you running on your own intentions
Have you seen the sight of me
'Cos I won't be there when you run out of changes
Changes
Look into your life what's on tonight
Dressed up in fame yeah, you're gonna see the sights
The sights
I'm gonna be there when you're soul comes down
I see you running on your own intentions
But have you seen the sight of me
'Cos I won't be there when you run out of changes
Have you seen the state of me
'Cos I won't be there when you run out of changes
Run out of changes
Have you seen the state of me
'Cos I won't be there when you run out of changes
Have you run out of changes
Run out of changes
Changes
Run out of changes
Changes
Changes
Changes
Run out of changes
