Relay your fears some are long founded
With a side to you that stays so near
Open eyes won't solve it
Be the soul of discretion act your years
Southern climbs rise higher but tastes so near
Take your time a look with fire seems insincere
Southern climbs rise higher
Don't freeze up somewhat excited
We've planned these moments inside out
Open eyes won't solve it
Be the soul of discretion outside in
Southern climbs rise higher but tastes so near
Take your time a look with fire seems insincere
Southern climbs rise higher but tastes so near
Take your time a look with fire seems insincere
Tastes so near
Tastes so near
Southern climbs rise higher
