### "Wherever You Are"

Visit "[Wherever You Are](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I love to see the ocean's beauty  
And the moon that shines above  
Alone in the sand looking at the stars  
Wishing someday I would find true love  
Would it be nice to see the morning  
With the one you love the most  
Would it be nice to say goodnight  
To the one you hold so close to your heart  
To your heart.

[Chorus:]

The wind that blows the dove  
Is the wind that blows my love  
Hope it'll find it's way to you wherever you are.

I love to sit in fields of green  
Looking deeply through the sky  
Watching birds as they fly by  
Hoping someday fate will bring me true love.  
Would it be nice to hold someone  
So dear, near yo ur heart  
Would it be nice to hear those words  
I love you from the one that you love,  
That you love.

[Repeat chorus]

[Bridge:]

I'd love to see myself one day  
In the arms of someone  
Who will share her life with me  
Selflessly?someday?  
You will find your way?to me?

[Repeat chorus]
