She appears on the scene  
Her body's on point and her walk is mean  
The crowd parts like the sea  
They can look but a touch they can only dream  
He loves a challenge so he licks his lips  
He's inspired by her arrogance  
His first words make her body tense  
She can't leave cuz she feels his strength  
Now she can't help but listen  
But she's down to her last defenses  
She says, "Why you being so persistent?"  
He says, "I speak what I want into existence"  
She never heard a man talk like this  
Never seen somebody so confident  
Driven to the point of death  
Gets what he wants even if it means no rest

They say I can't have you  
But I'm right here fighting for you  
And I'll stand by your side  
Win Lose Or Die

He left her mouth with the sweetest taste  
He left her heart with a warm embrace  
He took her mind to another place  
And the effects lasted for days  
No ordinary love story exists that could  
Illustrate how the spark was lit  
And why his love gave her spirit a lift  
The puzzle piece just perfectly fit  
But with the sunshine came the rain  
Pouring down gray clouds of pain  
Everything started to change  
After that he was never the same  
She stood by him to the very end  
But he left her with a power within  
All her fears blew away with the wind  
She was stronger than she'd ever been

They say I can't have you  
But I'm right here fighting for you

And I'll stand by your side  
Win Lose Or Die

For the rest of my life  
I'll have this burning inside  
And I'll be ready to die  
If I can't have you and hold you and keep you with me  
tonight (x2)
