Took my time before I hit that, treated it like a free
throw
Now this the moment I be thinking of, what I be waiting
all week fo'

Where ya bad side hiding at? I know you got a little
freak tho'
You sing a song when you ride that, but you a little off-
beat tho'

But, girl don't you hold back, say what you feel
Just take your cool off, this is the real

Before we take these clothes off, let's make a deal
You make me say ohhh, and'uhh I make you squeal...
