

## Sane "cold"

Visit ["cold"](#) on MotoLyrics.com

every night, more than the last,  
the rain starts to fall, it beats down on our backs  
ground so dry, the water is fast  
to rise it dont need any plan of attack

got a cold one, here on the floor  
do you know what it feels like, youve got  
20 seconds, head for the door  
do you know what it feels like

down here.down here

heavy heart, guarding the lot,  
Im alone, its so cold out here in the fog

coming in, shaking it off,  
Id hold you, but I told you Im sick as a dog
