[Intro Hook x1]

I can't help it but be, wrapped and hooked on you...
Wrapped and hooked on you...
Wrapped and hooked on you...
Everything about you got me, wrapped and hooked on
you...
Wrapped and hooked on you...
Wrapped and hooked on you...

And its not easy but I'm dealin with my feelings for
you...
We can take the scenic route, no rush, I'm fein in for
you...
So if you need it girl you got it mami please don't
stress...
We can take it step, by step, I wanna take ya breath...
Away..and sweep you off ya feet...[feet]
..You can lean on me, ya worries, kick em to the
breeze...
And please, believe, I'm gonna dance along...
Cuz ya heart beat plays the rhythm of my favorite
song...
..You see the way I look at you, I'm hooked on you...
If a picture says a thousand words then I can write a
book on you...
Just to see you smile, and they can write a book on us...
A best seller baby look us up, we just...
Movin with the ____, smoother then the ____...
And when it gets rough we gotta prove that we the
____...
..So no worries, I'ma be right here...
You got me, mami smile, I wanna make this clear cuz..

[Chorus x2]

I can't help it but be, wrapped and hooked on you...
Wrapped and hooked on you...
Wrapped and hooked on you...
Everything about you got me, wrapped and hooked on
you...
Wrapped and hooked on you...
Wrapped and hooked on you...

..No second guesses, cuz you know you something
special to me...
Nothin unforgettable, you've grown as an essential to
me...
..No less then spec...tacularrrr...
Cuz its everything about you that done..wrapped him
up...
And I feel like I been rushin but its suddin that I can't
slow..down...
Cuz the tempo, comin at me ten fold, nowwww...
So I gotta give it to you hands down, perfect from the
head down...
I ain't tryna stand 'round....
..You see the way that we, we fit together...
A dream, we in the weather, with ease, my cinderella...
Got me lookin for a glass slipper, the others jealous...
Cuz they see the way we stitched, two birds of the
same feather...
They say they flock together, but who, fly, like us...
We in, fifth gear, who gon' ride with us?...
...No worries I'ma be right here...
You got me, mami smile, I wanna make this clear cuz...

[Chorus *plays out*]

I can't help it but be, wrapped and hooked on you...
Wrapped and hooked on you...
Wrapped and hooked on you...
Everything about you got me, wrapped and hooked on
you...
Wrapped and hooked on you...
Wrapped and hooked on you...
