In hope in waiting  
I dream my life and dream I live  
I see my face  
I see my past but something's missed

Day is lost  
And life is getting short  
Night is coming to take my life and soul

In the hall where everybody fall  
In a dream where everybody can feel  
Life will be, like misery  
Life will be, like misery

Aha get me out of here  
From life-dying flame  
Wake me up and let me see ...  
make me real

I wanna go  
But your chains won't set me free  
And there's your face  
There are your arms around my knees

Day is lost  
And life is getting short  
From my soul I hear a helpless voice

In the hall where everybody fall  
In a dream where everybody can feel  
Life will be, like misery  
Life will be, like misery

Aha get me out of here  
From life-dying flame  
Wake me up and let me see ...  
make me real

And here I am and there you are  
But something between us is making us blind  
We live and we die

Aha get me out of here  
From life-dying flame  
Wake me up and let me see ...  
make me real
