(Talking)

Broken pieces on the ground, my heart shatters in pieces
Can believe I thought you were the one that I could be with
I removed you from my heart; you were taking up too much space
I can't believe I fell for another pretty face

(Verse 1)

Love was just a mystery
Everything was so new to me
Once I fell in love with someone I thought I could believe
Everything that he said, I thought I knew his heart
But I was wrong he's an actor so he played the part
Sucker for love, aint no other way to say it
Thought he was the missing piece to my puzzle but he didn't fit
Through em back in the box, and then I walked away
I'll try find the missing puzzle piece another day
You started trippin, on your game you started slippin
(oh)
I can see right through ya, as if you were wiped with Windex
I was more focused on love while you wanted just sex

(Pre-Chorus)

What you won't do somebody else will
You played your cards now it's my turn to deal.
Thought I was stupid, when you lied and said
That you love me, I guess you fooled me

(Chorus)

I'm afraid to give my heart
I'm afraid to give myself
I'm afraid to fall in love with anybody else
But just when I thought falling for you was safe
You proved to be just another pretty face
One step at a time, you played games with my mind
You broke all the rules, and played me for a fool

But just when I thought falling for you was safe
You proved to be just another pretty face

(Talking)

(Verse 2)

I thought I was in love but that's not what it was
You said what you wanted just to get me where you
wanted to
I thought that I was blind, but now I see, that you only
did it to play a
Trick on me
You played all your games just to fill in the space, now
pack up all your
Shit and
Get the fuck up out my face you, said you would die for
me
Never lie to me, but now I truly see that you are not the
one for me

(Pre-Chorus & Chorus)

(Bridge - Bret Sears)

I gave my heart. I gave my soul.
I gave everything and now it's gone
Look what you did. Look what you've done.
Our love has runaway, and never to return

(Chorus)
