(Chorus)(2xs)

Riding with the top back (yea we chillin)  
Cruising with my baby (yea we chillin)  
Let the speaking bump with the bass booming in the  
back  
That's the power of love (yea we can do that)

(Verse 1)(Rap)

Yea, yea, yea, yea, yea we chilling  
Chillin' like villain something something like a villain  
Nothing in this world could change the way I'm  
feelin'  
Nothing, nothing in this world right that could kill it  
I don't need nobody else as but you  
It's something special between us; I know you feel it  
too  
And it's something like magic, that something yea we  
have it  
While everybody else is tryna grab it (laughs)  
And our love is beyond what the people say  
People always spreading rumors every single day  
But what can I say, haters gonna hater  
And we goin keep on doing our thang  
& just like the sun we goin keep on shinning  
And Everyday like I hustler, we keep on grinding  
What we have is special babe, no I wouldn't give,  
offer, ruin, break, sell  
Or even trade

(Chorus)(2xs)

Riding with the top back (yea we chillin)  
Cruising with my baby (yea we chillin)  
Let the speaking bump with the bass booming in the  
back  
That's the power of love (yea we can do that)

(Verse 2)

Hey what can I say baby  
You earned my heart and you got me going crazy  
And it's not just the things you do  
That made me fall in love with you

I like the way you look at me and smile,  
I get lost in your hazel eyes  
I like the way we talk like we're best friends  
(And you) the only one that understand me,  
(And I) appreciate what you do for me  
(Cause you) do things that no one else has done,  
And I'll always love you for that, baby you're the one  
What they don't see is what we do  
Nothing else matters but me and you  
Come on baby take my hand  
And never let go

(Chorus)(2xs)

(Bridge)

It's nothing like the summer time  
Top back, cruising down the road, we ride  
(Yea we can do, yea yea we can do that)  
Holding hands while you drive  
You look at me and we smile  
(Yea we can do, yea yea we can do that)

(Outro)

Let the speakers bump with the bass booming in the  
back  
That's the power of love yea we can do that!
