Move your body next to me
Cant you see that Im in ecstasy
I wanna hold you tight tonight
Bring me closer
See my body movin baby
I wanna see you movin to the groovin
So come on get on down on the dance floor
Work it baby thats what we came here for
Feel the power pumping' in your vein
Im gotta get it up until you go insane
Let me hypnotize you, tease you
Move your body, move it to this funky beat
Get in trance into the jungle heat
Move your body next to me
Cant you see that Im in ecstasy
I wanna hold you tight tonight
Move your body next to me
Cant you see that Im in ecstasy
I wanna hold you tight tonight
Let's make love until the morning light
Bring me closer yeah

Get on down, get into this groovy sound
I wanna see you jumping up and down
So come on over make your body move
I got a beat that will stump you to the groove
So follow me and listen to your heart
I'm gonna make it pump from the start
Move your body, move it to this funky beat
Get in trance into the jungle heat
I wanna hold you tight tonight
I wanna hold you tight tonight
