laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,

ok, seven days gone bye, bye, bye,  
I call you up, but no reply  
now I don't need no sbi to tell me somethings changed  
ohhh,  
you make my heart go, boom boom boom  
making mixed tapes in my room,  
yet again you changed your tune but its hard to let you  
go ohh,

i wake up and baby I've been dreaming of the way you  
make me smile  
now everything you do just leaves me (wondering)  
wondering (wondering) wondering why does your love  
hurt so much  
why why why why why why why,  
don't know why does your love hurt so much  
why why why why why don't know why, why why why.

laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,

ok,  
now I was hanging with my girls below, when you pulled  
up  
with summy and you said hello, I've got your number I'll  
give you mine  
but baby now your taking up my extra time  
I've got my eye on the time your wasting,  
with the dumb girl doing the chasing, you said you  
loved me,  
don't lie.. but now your back tracking why?

I wake up and baby I've been dreaming of the way you  
make me smile

now everything you do just leaves me (wondering)  
wondering (wondering) wondering why does  
your love hurt so much, why why why why why why why  
don't know why does your love hurt so much, why why  
why why why don't know why, why why why.

laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,

ohhhh, your love crept into my heart, I'm picking up the  
pieces,  
just like broken glass, ohhhh, and ohhh I see it in his  
eyes,  
I'm talking to a stranger I know I don't recognize,  
(don't recognize, don't recognize, don't recognize,  
don't recognize)

why does your love hurt so much, why why why why  
why why why, dont know why does your love hurt so  
much,  
why why why why why don't know why, why why why.

laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,  
laa de daa de daa,

I gotta get up, I gotta go there,  
I gotta get up, I gotta no yeah, (x10)

laa de daa de daa  
laa de daa de daa  
laa de daa de daa  
laa de daa de daa
