There's a time in our lives, when we must listen to the  
oppressed  
And realize that we've been keeping women down

They have power and they have courage  
And we must all stand by the belief  
That a woman is strong, and she has the right to queef

Fly free  
Free to queef aloud  
Fly free  
Let every queef show that you're proud

You face so many challenges to put an end to your  
grief  
You're a woman now and you are free to queef

It's time for equality " we must give them the  
respect they deserve  
They're just the same as you and me " their rights  
must be preserved

Queef free (Queef free)  
Every woman has the right  
Queef free (Queef free)  
Let your queefing stars shine bright

You are woman, hear you roar (Queef free)  
Queefing too loud to ignore  
Queef a little each day and let your soul take flight

Aaaaahhhh  
Queef free
