(spm talking)

My people we on the rise

If we just open our eyes

We see what makes us weak

Killin each other right now as i speak

Understand the cowards act fools

But the bravest of men obey GOD'S rules

(spm) verse 1

I see my streets full of hustlers sellin dope

Creepin trophy trucks and buzzed on killa smoke

I see all the folks turn away

They disgusted on the money that i earn a day

And aint been busted

But everybody paid for

The way i live my i be on my way lord

Make a wish

I see mothers on crack g's got to serve

Everybody want to stack keys it don't hurt'em

Cold blooded will it ever be

Aint no love you can die and still never see

That the blood that you spillin is your own kind

Now take a look who you killin when you go blind

All the years sellin bricks black taught me well

That life only gives back what you can sell

And this message is colored by disperity

Since adolencence these streets want to marry me

In the zone

(chorus)

We gonna take control

Take our place on the totum pole

You know we got to blow

That peace pipe peace pipe

We gonna take control

No matter where we go

You know we got to blow

That peace pipe peace pipe

(lil russ) verse 2

Stop the greed

As i proceed to blaze

And recollect my thoughts

Cause we livin in the last age

Of revolutions doomed for redevistations

So before i die i'm bring about this unification  
Spreadin love all across the whole nation  
Sheadin tears for my peers  
And all his shit we facin  
Cause lord knows this mexicano had it bad  
Just like the rest of my people had in the past  
Struglin through poverty  
So i'm help my fellow brothers through the struggle g  
Lil russ let it be know world wide  
So i'm reunite me henta till we unified  
(chorus)  
We gonna take control  
Take our place on the totum pole  
You know we got to blow  
That peace pipe peace pipe  
We gonna take control  
No matter where we go  
You know we got to blow  
That peace pipe peace pipe  
(spm) verse 3  
Bandannas flagin every where clamin sets  
Gangstas playin double dare aimin techs  
Many people heard of me when i was lost  
And bobbed in the dirty deep with nina ross  
Always was the fool that  
Was at the party with my steel hammer pulled back  
Thank god he done tuned into a better man  
My second chance  
But i don't think i ever can forget the past  
We was kids playin football  
Havin fun  
And now we playin shoot yall  
With real guns  
One time for my dead friends  
I do my best so the trigger happy trends ends  
So you can rest  
(chorus)
