[Verse 1: Dum Dum]

Ain't no cappin when I'm rappin
I'm all bout dividends
Pull up in a bigger Benz
I know you feel adrenaline
Don't be mad cause ya man made it
Ya ain't dedicated
If I'm speakin anotha language than let me translate it
It was early in the mornin
Repos got the Volvos
Now I'm standin at my door
Smokin them Marlboros
Thinkin my lights be out tomorrow
And I can't beg or borrow
So if you ainb't from our side
It's day one of that horror
Now get in where I fit in
Sit down and listen
I hate startin from the bottom but hea go the new
mission
When I'm in too deep
I don't believe my shit stank
No if's, and 's, or cant's to get back to my old rank
Can I turn into a robber
Cock back revolver
Takin what you got
Than I'm hittin for the border
CD's, tapes, stereos
Here we go
Droppin 16 in the studio
But ya don't hear me though
