Your precious love means more to me
Than any love could ever mean
For when I wanted you
I was so lonely and so blue
For that's what love will do

And darling I, I was so surprised
When I first realized
That you were fooling me

And darling they say that our love won't grow
But I just want to tell them
Tell them that they don't know
For as long as you, long as you're in love with me
Our love will grow wider and deeper than any sea
Of all the things that I want
In this whole wide world
It's just to hear you say
That you'll be my girl

And oh, wanting you
I'm so lonely and so blue
That's what love will do
