I stand
with my arms open
facing the sky
defened by the silence
by the screaming inside

(chorus)
I am timeless
force from the sky
I am your calling
with arms open wide

Now that I'm timeless
with nothing to fear
voices are calling
everythings clear
I am timeless

As I
look all around me
I see what has gone before
blinded by the future
by the visions inside

I am timeless
force from the sky
I am your calling
with arms open wide

Now that I'm timeless
with nothing to fear
voices are calling
everythings clear
I am timeless

(repeat all x1)

(repeat chorus x1)
