How long I waited for someone like you
And now that I have found you
There's just no doubling what I'm gonna do
Everything I am
Will go into being you man
I'll give you all
All that I have
Love you forever
I promise you that
This heart is yours
To have and to hold
I'm in your hands now
Body and soul
All the love you've waited for
With every kiss
I'll give you all of this and more
No one you've ever been with
Made you feel like going the distance 'til today
Some were just pretending
Never had a happy ending 'til you looked my way

Cause what you read in me
Is a story you can believe
I'll give you all
All that I have
Love you forever
I promise you that
This heart is yours
To have and to hold
I'm in your hands now
Body and soul
All the love you've waited for
With every kiss
I'll give you all of this and more
I'll give you all
All that I have
Love you forever
I promise you that
This heart is yours
To have and to hold
I'm in your hands now
Body and soul

All the love you've waited for
With every kiss
I'll give you all of this and more
