

South Sixty Five "I'm There"

Visit "[I'm There](#)" on MotoLyrics.com

In the dead of night when you're fast asleep
And you wake from fright, caught in a bad dream
Don't reach for the light, Baby reach for me
No need to be scared
I'm there
When my job takes me miles away
And you're feelin' lost, havin' one of those days
Don't give it a second thought, call me anyway
Anytime, anywhere
I'm there
If you should look up at the moon and wonder
Just remember it's the same one that I'm under
I'm closer than you know
I'm with you heart and soul, I swear
I'm there
Well, if and when this world brings you doubt

I'll tell you then like I'm telling you now
I'll be your friend and your lover throughout
I'm never goin' anywhere
I'm there
If you should look up at the moon and wonder
Just remember it's the same one that I'm under
I'm closer than you know
I'm with you heart and soul, I swear
I'm there
And no oceans too wide
No canyon's too deep
No mountain's too high
To keep you from me
No matter where you go
Down any winding road
I'm closer than you know
I'm with you heart and soul
I swear
I'm there
I'm there
