We weren't aware of the darkness there  
There was just no way for us to know  
We did not live this life no  
Then you saw us there below  
All the broken words and all the people in the this world  
that hurt  
All the summertimes that used to make us feel alive  
I won't go away from you  
I will not do what I should not do  
I will not go where you won't go  
It's better for me if I don't know  
I know I'm not better off to live so far away where I  
don't know you  
I just want to come and see you

Wakeup starlight I do not feel right  
High up in the sky  
Shinedown and make us bright

It wasn't fair it wasn't fair for me to know  
For me to live for me to eat on the table of kings  
And live diamond dreams and drive silver cars and  
ignore the screams  
So live every day today and please remember this  
might be the last day  
You will ever see when we go to the stars and meet  
Shine shine on the people
