### "Stand"

Visit "[Stand](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I won't stop in a moment I got nuthin left to give  
and I'm saying, we got no hesitation to be poor  
everyday  
But sometimes in a painful and necessary part of our  
fable  
This state of the nation becomes lost and hidden away

Stand up did you really fall again  
I've never been so afraid, so afraid for you  
You just about got to be face down  
26 feet underground and how long must we pay  
Cuz you are not afraid and we have only one, one last  
shot at faith

I just heard about something and I got no way to verify  
at all  
Come show me a way to make just 2 and 2 seem nice  
I'll just take a vacation a nice trip to somewhere warm  
where I can not make justifications about love  
Loving you

Stand up when you gonna put your hands up  
Never been so afraid  
So afraid for you  
Face down 26 feet  
26 feet on the boondock street we pay  
But you are not afraid and we have only one  
One last shot at faith
