### "Get-A-Job"

Visit "[Get-A-Job](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There's a training course  
Boys and girls of real ambition  
Start a new job in a factory  
Where they're making ammunition  
But it makes them think of stealing  
When they read between the lines  
Through the owners of this funfair  
You won't find a ride you like  
Just get-a-job, get-a-job

Manufacture rubbish  
Although no one can afford it  
You could make a profit  
More than anyone deserves  
So you find you're left with poison  
So you dump it in our water  
And so create the kind of problems  
Only radiation cures  
Through get-a-job, get-a-job

Oh you young people are revolting  
8 to 5 should give the jolt needed  
In a few years you won't feel quite the same  
You'll be playing their get-a-job games

There's a training camp when  
You come from from saving nations  
Get a new job and a new leg  
Social rehabilitation  
Every time you think of leaving  
You get caught between the lines  
It's the training for the funfair  
You get taken for a ride  
You!  
Just get-a-job, get-a-job  
Just get-a-job, get-a-job
