Thieves took my prized possessions, right when I wasn't
looking
and all these false impressions leave me with a
saccharine smile and....

They got in through the window, and left before we got
home
But it won't get me down, cause they can't take away
my sound

I got my Hands Up! in the air
come and take what you want i won't do anything
(x2)
I'm giving it all away(x2)looks like this is your lucky day

Your action figure collection is filling up the kitchen, but
there not helping noone
Plastic superhero dreaming
Your waiting outside at the club, can't get in, i roll right
up
My good friend stamping hands just might be able to
get you in

(solo)

I got my Hands Up! in the air
come and take what you want i won't do anything
(x2)
I'm giving it all away(x2)looks like this is your lucky day
