"What Does Your Heart Say"

Quit playing around
trying to find
your feet sway to the ground
anywhere you like
its the thing
it seems so easy
dissappear, for a while
wherever do you go
see you on tv
running on and every direction
what does your heart say
what does your heart say
can't go on living this way

anywhere you like
that's the thing
it seems so easy
what does your heart say
what does your heart say
can't go on living this way
what does your heart say
what does your heart say

the change for the sake of a change

what does your heart say (4x)
