Come with me down paradise road.
This way please I'll carry your load.
This you must believe.

Come with me to paradise sky.
Look outside and open your eyes.
This you must believe.

There are better days before us.
And the burning behind those fires smoking.
Those skies blazing.
There's a woman waiting weeping.
And the young man nearly beating all for love.

Paradise is almost closing down
Down, Down

Come with me to paradise days (I believe, I believe it)
It will change your life (I believe)
It will sure change your way (I believe it)
This you all believe
Please take my hand (I believe)
Down paradise lane (I believe it)
Away for heartache (I believe)
Without any pain, without any pain (I believe it)
No you must believe

There are better days before us.
And the burning behind those fires smoking.
Those skies blazing.
There's a woman waiting weeping.
And the young man nearly beating all for love.

Paradise is almost closing
Take my hand
Paradise is almost closing
Take my hand
Paradise is almost closing
Paradise is almost closing down (ooooo)
