All these people are laughing at him  
And although he tries, it's getting to him  
And if he sees just one more grin  
He won't be held responsible

The city's closing in on him  
And everywhere's getting smaller and smaller  
And his fingers are getting itchy now  
And he won't be held responsible, so

Don't freak him out  
Don't freak him out  
Don't freak him out  
Before he blows his top

Don't freak him out  
Don't freak him out  
Don't freak him out  
Before he blows his top

Don't freak him out  
Don't freak him out  
Don't freak him out  
Before he blows his top

Don't freak him out  
So, don't you freak him out

Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

See his eyes, they're bloodshot red  
And bloodshot's what you're going to be  
It's not the fact that he's following you  
It's that he's not trying to hide

That's what's bothering you

The city's closing in on him  
And everywhere's getting smaller and smaller  
And his fingers are getting itchy now  
And he won't be held responsible, so

Don't freak him out  
Don't freak him out  
Don't freak him out  
Before he blows his top

Don't freak him out  
Don't freak him out  
Don't freak him out  
Before he blows his top

Don't freak him out  
Don't freak him out  
Don't freak him out  
Before he blows his top

Don't freak him out  
So, don't you freak him out

Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

Hey Mister Psycho  
You don't wanna blow me away

Now he's getting really close  
Can you feel his breath upon your neck?  
Now he's listening to your thoughts  
Now's the time to be a nervous wreck

The city's closing in on him  
And everywhere's getting smaller and smaller  
And his fingers are getting itchy now  
And he won't be held responsible, so

Don't freak him out  
Don't freak him out  
Don't freak him out

Before he blows his top

Don't freak him out  
So, don't you freak him out

Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

Yeah, Mister Psycho  
He'll blow you away  
Mister Psycho  
He'll blow you away

Mister Psycho  
He'll blow you away  
Mister Psycho  
Will blow you away
