If you're feeling sad about that Girl
And you know she's doing you no good
I found happiness then lost it
I thought I'd found Shangri-La

I'm not the suicidal type Girl
It's just a hiccup in our love
I found happiness then lost it
Maybe this should be our goodbye song

If you think that chick is insane
Put a stamp on her and send her off to Elvis
I found happiness then lost it
Maybe this should be our goodbye song
Maybe this should be our goodbye song
Maybe this should be our goodbye song...
