Here's Space Ghost with something to think about!

[Space Ghost]

Today, boys and girls

Put your best foot forward

If you're not sure which of your feet is your best foot

Flip a coin

Or have your feet run a race

When putting your best foot forward

Be sure to have the proper footwear

If this requires purchasing new shoes

It's best that you get two...

A right one and left one

And remember...

People judge you not by the size of your feet

But by whether your socks match

Thank you.
