What happened to the water, the water, the water.
What happened to the water, the water so wet.
It mixed up with the dirt, the dirt, the dirt.
The water got into the dirt and turned into mud.
The mud got on my shoe, my shoe, my shoe.
The mud got on my shoe then I came inside.
I messed up the carpet, the carpet, the carpet.

My mud got on the carpet and my mom got mad.
She sent me for some water to clean up the carpet.
I turned on the faucet and nothing came out.
What happened to the water, the water, the water.
What happened to the water, the water that cleaned the
carpet and washed the dog.
AND WAAAASHED THE DOOOOOOOG!!!
Wash your dog!
