She is on the corner
She is waiting for you (for you)
She can fly and you give her wings
But tell me
What about me?

And she's watching you
Like some kind of spy (Spy)
She knows that I can be the threat
But tell me
Do you think the same?

And I want it
And I need it babe
And all I ever want it was
To be your love
And you want it
And you need it babe
And all you ever want it was

She knows how to get you
But I don't need direction (no need to know)
And I know sometimes I'm too direct
But tell me
Do I look like a whore?

She can make it jealous (jealous)
All her situations (oh boy)
She is the ideal of lot of boys
But tell me
Is it yours?

And she wants it
And she need it babe
And all she ever want it was
To be your love
And I want it
And I need it babe
And all I ever want it was
That you want me
And you need me baby

And all you ever want it was
To kiss my lips

To touch it, to feel it
To win ya, to get cha
And hold you, and put you around my arms
So I can feel you mine

And I want it
And I need it sweetheart
And all I ever want it was
(A boy like you)
And all I ever want it was
(Someone like you)
And all you ever want it was
Break up with her
