(Royston Langdon)

Baby, I'm sorry
But I've done it again
I really didn't mean to hurt you
But I needed a friend

So I'm not watching from the sides
I'm not trying to decide
I'm not standing all alone
Instead, I'm dancing on my won

(Chorus)

Always dancing on my own
Always right here for a reason
Always dancing on my own
The music's over but we all go on

You left me with the big lights
You left me watching it all
I really didn't mean to hurt you
But I had to have more
So I'm not watching from the sides
I'm not trying to decide
I'm not standing all alone
And I'm dancing on my own

(Chorus) x2

We all go on, well all go on, we all go on

Dancing on my own
I'll be dancing on my own, I'll be dancing on my own
Dancing
I'll be dancing
I'll be dancing on my own, I'll be dancing on my own
Dancing
