(Royston and Antony Langdon)

Seems we were looking forward to find
All the little things that we left behind
I couldn't seek, I couldn't find
So I just read between the lines

So be my Jupiter's moon
Wont you come around soon
I love you from the cradle to the grave
Cradle to the grave

We were searching far and wide
For some of those things we put aside
I couldn't seek, I couldn't find
Well I just read between the lines

(Chorus)

So be my Jupiter's moon
Wont you come around soon
I love you from the cradle to the grave
Be my Jupiter's moon
Wont you come around soon
I'll protect you as you move along the way

She had everything to live for
Where the brave cowards on
Don't despair this hollow heart
So stop it now before you start

(Chorus)

I'll protect you as you move along the way
I love you from the cradle to the grave, cradle to the
grave

Jupiter's moon
Come around soon
