Ahh...

I recall all that I remember
He was fading fast when he rode home
I was trying hard, so hard not to avenge ya
But it was all to late before I knew

-?-

He was ravin on how fast the guy went through
So I fell in love before I checked the gender
And now the reputation's far from what I know

Just like you
Just like you
You gonna let the bee sting youuu...
You gonna let the bee sting youuu...

Ahh...

-?-

When I'll stand up with the rest all alone
I tried so hard, so hard not to avenge ya
You just stick me with your tacks and (?)
Whew...

-?-

She was ravin on how fast the guy went through
Well so I fell in love before I checked the gender
And now the reputation's far from what I know
I just went along, singing my song

You gotta let the bee sting, youuu... (x3)

-?-

(Let the bee sting...)
You gotta let the bee sting, youuu... (x3)

Ah...
