He shot his mother down
With a gun that he had found
He dragged her by the hair
And sat her in a chair

Chorus
He knew that he was wrong
Now all his friends were gone
But terry's only care
Was to be a millionaire

At school he played the fool
And on linoleum he ruled
The other children stared
But he would kick and pull their hair

Chorus
Remember terry's song
And your future won't be long
You can be happy where you are
Or as lonely as a star

Remember terry's song
And your future will be long
You can be happy where you are
Or as lonely as a star

You can be happy where you are
Or as lonely as a star
But terry's only care
Was to be a millionaire
