Trpped in a bloody storm of dust my eyes are sharing  
the darkness at dawn.  
A new solistice is coming covering the daylight with a  
dark veil as a  
Funeral curtain on the childish corpse.  
Full of bolled the moon is calling her children the  
abomination arrive  
Straight from the shadow land  
Where we standing for the revelation of doom. Nellish  
sentinels raise the  
Apocalyptic terror.  
For our last hours are coming kings will be kings  
domination will be see ! ! !

The scripts from the underworld have taught me the  
unholy predicton of xul.  
".....the return of the dark empire my horned lord and  
his mighty legions  
Shall pound the earth and celebrate the retribution of  
the holy trinity: ! !

[LEAD : NEBIROS / NORGEST]

[CHORUS:]

Gleaming sharpen iron jag millions of holy faithful  
blood guts spreading on  
The batlle ground screaming of pain when satan's  
hammer sweeping the holy  
Kingdom agony.... Yes agony's stiflinem hard and slow  
!  
For the end of time we ride the holocaust we fight.  
We summon devil's daughter to copulate and spread  
her infectious seeds  
Through the idiotic human race.

Genocide Numanicide Infanticide Christianicide.....  
Genocide Numanicide Infanticide Christianicide.....

The mightiest violence is executed to destroy every  
christian bitch ?  
Pounding and shaking and mutilating and raping

corpses blasted everywhere  
Deceiver tears in blasphemy  
Their desolate planet which they've built in peace and  
disgusting love of  
Their !  
They will tear apart the dead white christ under the  
flagellation of my  
Tongue.  
My black wings stained of blood are sweeping the holy  
kingdom in agony under  
The commandments of our legions, but just in regards  
to the retribution of  
Thr holy trinity....

[CHORUS:]

Gleaming sharpen iron jag millions of holy faithful  
blood guts spreading on  
The battle ground screaming of pain when satan's  
hammer sweeping the holy  
Kingdom agony.... Yes agony's stiflinem hard and slow  
!  
For the end of time we ride the holocaust we fight.  
We summon devil's daughter to copulate and spread  
her infectious seeds  
Through the idiotic human race.
