(S. Degen)

Sometimes I wonder what's going on in my brain
Sometimes I ask myself are they feeling just the same
One day up, feeling fine they got all my sympathy
Next day down feeling blue living here in misery
And I want to cry even sometimes die
I don't know your face girl, don't even know your name
But I wish with all my heart that we will meet in time
You'll make me strong and I'll give you all
I don't want to fight no more
Make the sky be blue
I want to go back home
Hope you'll be there too.
