[Intro]

Hmm, yeah

Wanna talk about my life, my life

Wanna talk about my life, my life

Oh yeah

You see I never knew a love like this before  
I gave you my life to walk right out the door  
You said our love would stand the test of time  
Or was that just a line

The love that you gave was so amazing, why  
Why did you have to come and wreck my life  
Don't understand the reason, I can't tell  
I'm going out of my mind

Into my life  
You stole my heart  
Walked out, don't know why  
Into my life  
Tell me why you play these games with my heart

Into my life  
You stole my heart  
Walked out, don't know why  
Into my life  
Tell me why you play these games with my heart

Time after time, moment to moment you  
Told me baby you loved me, so can't you  
See how you crushed my heart with those few words  
Or was it just rehearsed

When I lay at night all I can think is you  
Just one more time, so many things I'd do  
To keep you coming back and wanting more  
How could you walk out that door

Gave you my love  
You didn't appreciate it  
Gave you my time  
Boy how I do regret it

Never will I  
Brother you can forget it  
I'll be fine

Into my life  
You stole my heart  
Walked out, don't know why  
Into my life  
Tell me why you play these games with my heart

Into my life  
You stole my heart  
Walked out, don't know why  
Into my life  
Tell me why you play these games with my heart

So don't come knockin' at my door  
Cause you ain't welcome 'round here no more  
I can do bad by myself  
Without you walking in and out of my life

Don't come knockin' at my door  
Cause you ain't welcome 'round here no more  
I can do bad by myself  
Without you walking in and out of my life

Into my life  
You stole my heart  
Walked out, don't know why  
Into my life  
Tell me why you play these games with my heart
